

TITLE OR SUBJECT OF SUGGESTION · Auditorium Enhancement	CLASSIFICATION UNCLASSIFIED	SUGGESTION NO. 77-316
PRESENT METHOD The use and the recording of events in the Headquarters Auditorium by the use of electronic media (videotape) is on the increase. At the present time the "discs" on the walls and ceiling are painted an "off-white".		
I SUGGEST That the "discs" be painted with a medium shade of blue, matte finish paint. The disc directly behind the stage should be a medium shade of blue. The rest of the discs can be painted either the same , ascending, or descending shades of the same color.		
ADVANTAGES The image quality of every Agency videotape will be considerably enhanced giving them a more professional appearance. Audience eye strain and fatigue will be reduced, especially during presentations lasting more than one hour. According to the latest research, the color blue is the most universally acceptable color worldwide.
